

Unterstützte Dissertationsprojekte 1976 bis 2017

Jahr der ersten Vergabung	Name Land	Titel der Dissertation	Dauer	Betrag in CHF in jeweils fünf Jahren
1976	R. Gass Schweiz	Einfluss der Blutverdauung auf die Entwicklung von Plasmodium gallinaceum (Brumpt) im Mitteldarm von Aedes aegypti (L.) (1977)	1976–1977	
1980	R. Knechtli Schweiz	Verbreitung der Phlebotominae in der Südschweiz und ihre potentielle Rolle als Überträger von Leishmanien (1987)	1980–1984	
1981	H.-P. Marti Schweiz	Population dynamics and ecology of Bulinus globosus (Mollusca, Gastropoda) in selected habitats in the Ifakara area, Tanzania (1984)	1981–1982	
Totalbetrag von 1976 bis 1981				39 751
1983	S. Biro Schweiz	Investigations on the bionomics of Anopheline vectors in the Ifakara Area (Kilombero District, Tanzania) (1987)	1983–1985	
1984	A. Moser Schweiz	Untersuchung einer Population der Kreuzotter (Vipera berus L.) mit Hilfe der Radio-Telemetrie (1988)	1984	
1984	L. Robyn Schweiz	Diagnostic approach in patients with liver diseases in rural Tanzania (1986)	1984	
1985	C. Lengeler Schweiz	Individual and community diagnosis of urinary schistosomiasis and their relevance for disease control: a study in an endemic area of southeastern Tanzania (1989)	1985–1986, 1988	
1985	R. Suter Schweiz	The plant molluscicide Swartzia madagascariensis and its application in transmission control measures against Schistosoma haematobium: experience from Kikawila (Kilombero District, Tanzania) (1986)	1985–1986	
1985	A. Hablützel Schweiz	Voruntersuchungen zum Befall der Speicheldrüsen von Aedes Aegypti durch Plasmodium Gallinaceum-Sporoziten (Diplomarbeit 1984)	1982–1984	
Totalbetrag von 1982 bis 1986				103 794
1987	E. Lobos Guatemala	Immunochemical analysis of Onchocerca volvulus antigens and characterization of a cDNA clone encoding a low molecular weight antigen (1988)	1987	
1987	A. Mnzava Tansania	Epidemiology and control of malaria transmission by residual house spraying with DDT and Lambdacyhalothrin in two populations of the Anopheles gambiae complex in Tanga Region, Tanzania (1991)	1987–1990	
1987	F. Grimm Schweiz	Biological aspects of Phlebotomus perniciosus in Southern Switzerland and the development of Leishmania infantum metacyclic forms (1991)	1987–1992	
1989	S. Marti Schweiz	Biochemische und immunologische Charakterisierung von Cuticlin, einem Strukturprotein aus der Kutikula von Ascaris suum (1991)	1989	
1989	S. Baer Schweiz	The biology of the East African Lunfish, Protopterus amphibus Peters, in regard to its culture in rainwater ponds	1990–1992	
1989	P. Odermatt Schweiz	Comparative investigations on the population dynamics of Bulinus globosus (Morelet, 1866) and Biomphalaria pfeifferi (Krauss, 1848) (Gastropoda; Planorbidae): with special regard to the assessment of high risk areas for the transmission of intestinal schistosomiasis (1994)	1990–1992	
1989	M. Bodio Schweiz mit T. Junghanss Deutschland	Notfall-Handbuch Gifttiere: Diagnose, Therapie, Biologie (1996)	1989–1992	
1989	K. Bender Deutschland	Biochemical and structural aspects of the nuclear chromatin of procyclic Trypanosoma brucei brucei (1991)	1989, 1991	
1990	S. Marti Schweiz	Biochemische und immunologische Charakterisierung von Cuticlin, einem Strukturprotein aus der Kutikula von Ascaris suum (1991)	1990	

Unterstützte Dissertationsprojekte 1976 bis 2017

Jahr der ersten Vergabung	Name Land	Titel der Dissertation	Dauer	Betrag in CHF in jeweils fünf Jahren
1990	D. Mäusezahl Schweiz	Measuring the health impact of improved water supplies and sanitation facilities in rural Zimbabwe (1996)	1990, 1993–1994	
1991	H. Hadji Tansania	Studies on transmission and transmission blocking of <i>P. falciparum</i> malaria to <i>Anopheles gambiae</i> species complex and <i>An. festus</i> in a malaria endemic area in Tanzania	1992–1994	
1991	N. Hurt Schweiz	Markers of malaria morbidity in children exposed to intense and perennial transmission in Tanzania: characterization and validation of indicators of cell-mediated immune responses (1994)	1991–1992	
Totalbetrag von 1987 bis 1991				703 210
1993	S. Hausmann Schweiz	Community understanding of malaria, and treatment-seeking behaviour, in a holoendemic area in southeastern Tanzania (2000)	1994, 1998	
1993	F. Freiburghaus Schweiz	African medicinal plants used in the treatment of sleeping sickness: an evaluation (1996)	1993–1996	
1993	R. Degen Schweiz	Identification and analysis of „ <i>Plasmodium falciparum</i> “ genes mediating cytoadherence (1999)	1993–1994	
1994	F. Matthies Deutschland	Traditional herbal antimalarials – their role and their effects in the treatment of malaria patients in rural Tanzania (1998)	1995–1998	
1995	S. Hausmann Schweiz	Community understanding of malaria, and treatment-seeking behaviour, in a holoendemic area in southeastern Tanzania (2000)	1995–1998, 2000	
1996	J. Utzinger Schweiz	Novel approaches in the control of schistosomiasis: from rapid identification to chemoprophylaxis (1999)	1996–1999	
Totalbetrag von 1992 bis 1996				392 554
1997	C. Auer Schweiz	Tuberculosis control in Manila: comparing two treatment approaches and enhancing public private health sector collaboration (2003)	1998–2001	
1998	I. Müller Schweiz	Application and validation of new approaches in spatial analysis as tools in communicable disease control, health systems and environmental epidemiology in tropical countries (2000)	1998	
1998	D. Chevannes-Vogel Jamaika	Gender and health behaviours at household level with respect to sexually transmitted diseases: the case of an urban ghetto community in Jamaica (1999)	1998	
1998	H. Stirnadel Deutschland	The relative contribution of genetic and environmental factors to variation in malaria immunity, infection and related morbidity, in areas highly endemic for <i>Plasmodium falciparum</i> (1999)	1998	
1998	L. Knopf Schweiz	Rolle des Parasitismus in der N'Dama Viehzucht in der Feuchtsavanne der Côte d'Ivoire (2000)	1998–1999	
1998	F. Krönke Deutschland	Perception of ill-health in a FulBe pastoralist community and its implications on health interventions in Chad (2001)	1999–2001	
1999	B. Genton Schweiz	Baseline studies of the epidemiology and immunity of malaria in preparation for malaria vaccine trials in Papua New Guinea (1997)	1999	
1999	J. R. M. Armstrong Schellenberg Grossbritannien	Socially marketed treated nets and child survival in southern Tanzania (2001)	2000–2002	
2000	T. J. Marchant Grossbritannien	The health of pregnant women in rural Tanzania with specific emphasis on anaemia and the impact of socially marketed insecticide treated bednets (2002)	2000–2001	
2000	A. Bischoff Schweiz	Overcoming language barriers to health care in Switzerland (2001)	2001	
Totalbetrag von 1997 bis 2001				374 087

Unterstützte Dissertationsprojekte 1976 bis 2017

Jahr der ersten Vergabung	Name Land	Titel der Dissertation	Dauer	Betrag in CHF in jeweils fünf Jahren
2003	M. Mabaso Südafrika	Describing interventions and modelling malaria risk in Southern Africa	2003–2004	
2003	M. Craig Südafrika	The temporal and spatial distribution of malaria in Southern Africa	2003–2004	
2005	B. Plüss Schweiz	Investigating the benefits and costs of an integrated malaria control program in a large oil palm plantation in Papua New Guinea	2005–2008	
2005	V. Pflüger Schweiz	Epidemic potential of Streptococcus pneumoniae	2005–2007	
2005	S.J. Wang Taiwan	Changing malaria epidemiology in urban sub-Saharan Africa	2005	
2006	I. Felger Deutschland	Genomics approach to the selection of new antigens for serological diagnosis of helminth infections	2006–2007	
Totalbetrag von 2002 bis 2006				237 092
2007	K. Phongluxa Laos	Community involvement in the control of food-borne trematodiasis in Lao PDR	2007–2009/13	
2008	L. Meier Schweiz	Decolonizing International Health. The activities of the Swiss Tropical Institute (STI) in Tanzania and Côte d'Ivoire, 1943–2000	2008–2013	
2009	K. Gross Schweiz	Improving access to poor women: The role of institutions regarding women's access to malaria and maternal health services in the Kilombero Valley, Tanzania	2009–2011	
2010	S. Oehring Schweiz	A proteomic approach to identify and characterize novel nuclear proteins in Plasmodium falciparum» (2008–2011)	2010	
2011	V. Jean-Richard Schweiz	Demographic and health assessment of mobile populations and their livestock in Lake Chad area	2011–2012	
2011	N. Bertschi Schweiz	Functional exploration of regulators of chromosome end biology and virulence gene expression in Plasmodium falciparum	2011–2013	
Totalbetrag von 2007 bis 2011				410 150
2013	H. F. Owusu Ghana	Insecticide resistance monitoring: what data is needed?	2013–2015	
2013	Ph. Bless Schweiz	Draft concept: Epidemiology of campylobacteriosis from a human, veterinarian and environmental perspective in Switzerland	2013	
2013	P. Schmid Schweiz	Medicine, Faith and Politics in Agogo. A history of rural health care in Ghana ca. 1925–1980	2013	
2013	O. Dietz Schweiz	Pf07_0007 Identification and characterization of an exported protein	2013	
2013	N. Brancucci Schweiz	Novel insights into the epigenetic regulation of Plasmodium falciparum virulence genes	2009–2012	
2014	H. Greter und S. Krauth Schweiz	Systems epidemiology of human schistosomiasis and livestock fascioliasis in Chad and Côte d'Ivoire	2014–2015	
2014	N. Vischer Schweiz	Efficiency and quality in conducting clinical trials in low-resource settings	2014–2016	

Unterstützte Dissertationsprojekte 1976 bis 2017

Jahr der ersten Vergabung	Name Land	Titel der Dissertation	Dauer	Betrag in CHF in jeweils fünf Jahren
2014	G. Ferrari Italien	Epidemiology and treatment of malaria in Kinshasa, Democratic Republic of Congo	2014	
2015	B. Barda Côte d'Ivoire	Assessment of safety and efficacy of oral Synriam and Synriampraziquantel combination in schoolchildren infected with Schistosoma heamatobium and Schistosoma mansoni	2015	
2015	J. Wolf Deutschland	Health and development effectiveness of intergrated home-based interventions in rural Andean communities, a randomised trial	2014 – 2015	
2015	B. Schwind Schweiz	Frauen und Gynäkologie in Evaluation	2015	
2016	T. Sovd Mongolei	Molecular epidemiology of Mycobacterium tuberculosis in Mongolia	2016	
2016	A. Gamell Tansania	Providing a setting for a one-stop clinic for HIV-infected children and their families	2016–2017	
Totalbetrag von 2012 bis 2016, in CHF				857 633
2017	M. van den Berg Kanada & Niederlande	The Ethical Implications of the Malaria Vaccine in Sub-Saharan Africa	2017–2018	
2017	D. Rodriguez Mexiko	Understanding heterogenety in the impact of malaria interventions in Papua New Guinea	2017–2018	
2017	M. Bumbaugh Burkina Faso	Understanding trends, transitions and trends of fertility and family planing in South Kivu, Democratic Rebuplic of Congo	2017	
Totalbetrag 2017, in CHF				141 081
Gesamttotal der Vergabungen für Dissertationen von 1976 bis 2017, in CHF				3 259 352.00
